Department of Community Medicine (Theory)
MBBS 2020 BATCH TEACHING SCHEDULE (July 2022)

S	Date	Topic	Time	Faculty
1	01-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.4 - SDL Describe the principles and enumerate the measures to control a disease epidemic	8.30 AM – 9.30 AM	Dr. Praveer
2	05-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.5 a - Tutorial 1. Describe the planning cycle and its individual components in reference of disease control at community level 2. Describe the management methods and its individual components in reference of disease control at community level 3. Describe the role of Immunization, Chemoprophylaxis, Surveillance, Disinfection, Sterilization in control of a disease at community level	10.30 AM – 11.30 AM	Dr. Sumita
3	08-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1d - Seminars <i>Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Rickettsial Diseases</i> <i>Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level.</i> <i>Describe and discuss specifically the secondary prevention feasible at primary care level</i>	8.30 AM – 9.30 AM	Dr. Harinder
4	12-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.5 b- Tutorial 1. Describe the planning cycle and its individual components in reference of disease control at community level 2. Describe the management methods and its individual components in reference of disease control at community level 3. Describe the role of Immunization, Chemoprophylaxis, Surveillance, Disinfection, Sterilization in control of a disease at community level	10.30 AM – 11.30 AM	Dr. Praveer
5	15-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1e - Seminars Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Lymphatic Filariasis Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level. Describe and discuss specifically the secondary prevention feasible at primary care level.	8.30 AM – 9.30 AM	Dr. Praveer
6	19-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1f- Seminars <i>Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Dengue syndrome</i> <i>Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level.</i> <i>Describe and discuss specifically the secondary prevention feasible at primary care level.</i>	10.30 AM – 11.30 AM	Dr. Harinder
7	22-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1g - Seminars	8.30 AM – 9.30 AM	Dr. Sumita

		Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Chikungunya fever Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level. Describe and discuss specifically the secondary prevention feasible at primary care level	AM	
8	22-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.6 - Tutorial 1. Define the disease surveillance, control, treatment, health education 2. Describe the disease surveillance, control, treatment, health education 3. Describe the IEC and BCC; and the methods of IEC and BCC to educate and train health workers in disease surveillance, control, treatment, health education 4. Describe how you will do the IEC and BCC to educate and train the health workers	11.30 AM – 12.30 PM	Dr.Sumita
9	23-07-2022	AETCOM Module 2.1: The foundations of communication9 – 2 Demonstrate ability to communicate to patients in a patient, respectful, non-threatening, non- judgmental and empathetic manner	2 PM – 5 PM	Dr. Harinder
10	26-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1 h- Seminars Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Mumps Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level. Describe and discuss specifically the secondary prevention feasible at primary care level.	10.30 AM – 11.30 AM	Dr.Sumita
11	29-07-2022	Epidemiology of communicable and non- communicable diseases CM 8.1 i- Seminars Describe the problem statement, epidemiological determinants, transmission, incubation period, clinical feature, complication, Diagnostic measures & preventive & control measures of Diphtheria Discuss the feasible epidemiological and control measure which are adopted or can be adopted at primary care level for Diphtheria Describe and discuss specifically the secondary prevention feasible at primary care level for Diphtheria	8.30 AM – 9.30 AM	Dr. Praveer
